

Dear Kory,

It has been a pleasure working with you through this scholarship. Your kind communicate was such an encouraging message, it brought forth tears of appreciation and renewed inspiration for commitment to the cause.

Sisters community is centered around its youth and has invested in the provision of amazing opportunities through educational programs in our schools. Consequently we are proud of the exemplary students that graduate from SHS. These graduates are well prepared for the challenge of higher education, vocation and work opportunities they face in their next phase of life. There are so many deserving students and not enough scholarships to go around.

Thank-you for your generosity and commitment to the Roth / Ponderosa Heating and Cooling Scholarship, especially during these tough economic times. Your specific scholarship is great its criteria reaches a student who might not have otherwise received an award. It was ideal for you present the scholarship to this year's recipient, Beau Fitzke. In the past I have made certain to give recognition to Ponderosa Heating and Cooling for offering this scholarship but am happy to know you look forward to joining us next year.

Next week the Nugget Newspaper will feature the scholarships and recipients so make sure to check it out either online or view the graduation ceremony program.

Sincerely,
Karen
