Kory MacGregor,
Roth Heating and Cooling

Dear Kory MacGregor,

This school year has gone very great and I have had tremendous educational growth in my major of Civil Engineering. Since the fall, I have been taking courses in the Civil Engineering Professional program. I have discovered that I enjoy a wide variety of subjects within my field of study. My favorite classes to date have been Structures, Fluid Mechanics and Geotechnical Engineering.

Over the summer, I have landed an excellent internship with the Federal Energy Regulatory Commission, Division of Dam Safety and Inspections. I will be working in Portland and I am very excited to gain valuable real-life experiences.

I would like to thank you for your continued financial support over the years, as it has helped me to strive to reach my goals.

Best Regards,

Devon Jarmer

To Kory MacGregor, Roth Heating & Cooling

The 2015-2016 has treated me well as I have found much success in all of my courses. I have a 3.52 GPA and have recently applied to pro-school for the College of Engineering. I plan on attending OSU for the 2016-2017 school year and for the remainder of my college career. I am excited to continue my education in the Electrical & Computer Engineering field.

Regards,
Evan Gould

Dear Mrs. Powell,

I'm writing to express my sincere gratitude for awarding me with the Roth Heating and Cooling Scholarship for the 2016-2017 school year. Just an hour ago I opened a letter stating I received this scholarship. Coming from a family where I will have to pay a majority of my education, this scholarship means an enormous deal to me. I want to thank you for not only granting me this award, but for noticing the work I've put forth the past 4 years of my life. Also, thank you for believing in me and my abilities going forward by supporting me with this scholarship. I will demand the best from myself so I can contribute to society and help other people through physical therapy. Again, I am extremely thankful for this scholarship and I will work my hardest going forward.

With great thanks,
